DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 25-26 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated over Albukerk et al. (Albukerk), US Pat No. 5,929,848.

Regarding claim 25, Albukerk discloses a mobile phone, wherein said mobile phone has an identifier module, which comprises a receive module for receiving short-distance wireless message transmitted from external marker modules; said wireless receive module decodes out corresponding marking information from the wireless message, and then transmits the information to MPU in the mobile phone to process (see Fig. 8 and col. 8, line 13 to col. 12, line 61).

Regarding claim 26, Albukerk discloses the mobile phone according to claim 25, wherein said identifier further comprises a transmit module for transmitting short-distance wireless message to the external marker modules (see Fig. 8 and col. 8, line 13 to col. 12, line 61).

Allowable Subject Matter

3. Claims 1-4,6-24 and 27 are allowed.
